Health Corner

Sunlight continued

Three Benefits of Sunlight

1. Sunlight increases the body metabolism by stimulating thyroid gland function.
2. It lessens stress by working through the sensory receptors in the skin as well as through psychological factors.
3. It increases gamma globulin-a protein that helps the body fight infection.

The Bible reveals the source of healing, spiritual sunlight.

“But unto you that fear My name shall the Sun of righteousness arise with healing in His wings.” Malachi 4:2
